### ***Response to Amendment***

1. The amendment filed on June 2, 2011 has been considered and entered.

## **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments under the "Remarks" pages 13-16 have been considered and are persuasive. the prior art references fail to teach or suggest the method for joining a coupling element to a pipe including "positioning the coupling element on the pipe at an end region of the pipe such that the recess in the annular inner surface of the coupling element registers with the outer wall of the pipe at an open end of the pipe, the coupling element being positioned on the pipe separate and apart from any other pipe; and enabling the second and dedicated radial post-pressing action to further press the end of the pipe radially outwards, slightly further than the diameter proper of the pipe, and thus by bending action thereon into the recess of the coupling element aligned with the end of the pipe, to flare the end of the pipe outwardly into the recess" in combination with other limitations of claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
